

sleeping environment and bed

rating

tested hotel room	Room number 122 with lateral lake view
overall assessment	my overall impression of the sleep quality in the hotel room was very good, I can recommend it.
room temperature air conditioning available	yes, my visit to this hotel was in September 2021, so it was still a warm period with daytime temperatures around 25 degrees. The air conditioning worked perfectly. If you reset it to level 1, the noise of the air conditioning is only audible and you can sleep well. The room has a small balcony with a large double door. This enables very good ventilation of the room. The bathroom also has a large window to ventilate.
silence in the room - soundproofing	
noise of mini-bar fridge ★★★★★ = noises more or less absent	★★★★★ the mini bar fridge was acoustically inaudible so absolutely not annoying. Technically very well solved.
air conditioning noises ★★★★★ = noises more or less absent	★★★★★ noises from the air conditioning and thus the cooling system are more clearly perceptible in automatic mode, if you set the fan to level 1 (which is sufficient to cool the room from my point of view) it becomes significantly quieter and you can sleep well.
soundproofing regarding street noise, television, noises from neighboring rooms etc. ★★★★★ = noises more or less absent	★★★★★ the soundproofing of the room is very good. Noises from the neighboring room were imperceptible during my stay.
possibility of darkening the room	
darkening Quality ★★★★★ = the room can be almost completely darkened	★★★★★ the hotel room can be darkened by a blackout curtain, but some light shines in in the floor area, so overall a good, but not complete, darkening can be achieved.

mattress properties	
mattress firmness	<p>The mattress in the room had a firm and a softer side, so I had housekeeping make the softer side of the mattress for me. In my opinion, however, the mattress was still a bit too hard, so I ordered a so-called topper (pad) through reception, which made me feel pleasantly soft.</p> <p>If, despite the topper, the mattress is still too hard, there would certainly be the option of simply having a second topper layer open, so that an even softer lying feeling can be achieved. Please note, however, that with 2 topper layers, a softer lying feeling is conveyed, but the distance to the mattress increases further and thus the body support is less good.</p>
there is an opportunity for improvement with a topper (this makes the mattress a little softer)	yes
pillows	
pillow menu	
what types of pillows?	there are 2 different pillows on the bed. You could get a neck support pillow from housekeeping.
