

sleeping environment and bed

rating

tested hotel room	Room number 305, mountain view
overall assessment	my overall impression of the sleep quality in the hotel room was very good, I can recommend it.
room temperature air conditioning available	yes, my visit to this hotel was in October. The air conditioning worked perfectly. The desired room temperature is established in automatic mode. It is possible to open the windows of the room completely, which is always very helpful for ventilation or cooling. As there are two large floor-to-ceiling casement windows, you can quickly achieve good room ventilation
silence in the room - soundproofing	
noise of mini-bar fridge ★★★★★ = noises more or less absent	★★★★★ the mini bar fridge was acoustically barely audible not annoying. The cooling noise increased a bit in the morning around 7 a.m., but hardly annoying.
air conditioning noises ★★★★★ = noises more or less absent	★★★★★ noises from the air conditioning system and thus the cooling system in the background are only faintly audible in automatic mode, otherwise switch the ventilation back to level I.
soundproofing regarding street noise, television, noises from neighboring rooms etc. ★★★★★ = noises more or less absent	★★★★★ the soundproofing of the room is good. Noises from the neighboring room were not audible during my stay. The secluded location of the hotel is almost a guarantee for relaxation and tranquility.
possibility of darkening the room	
darkening Quality ★★★★★ = the room can be almost completely darkened	★★★★★ the hotel room can be darkened by a blackout curtain, so you can sleep in the room during the day. The curtain darkens very well, it is not completely dark.

mattress properties	
mattress firmness	<p>felt medium to firm mattress, due to 2 softer cushions (toppers), which you can order through the reception, the mattress was softer. Fortunately, we did not have a continuous duvet, as you often find it on double beds in hotels, but 2 single duvets.</p> <p>The king size bed is 200 meters long and 180 cm wide. Housekeeping gives you a wedge pillow that you can slide under the mattress. This allows you to elevate your head or feet.</p>
there is an opportunity for improvement with a topper (this makes the mattress a little softer)	yes
pillows	
pillow menu	yes, you were asked for your dream pillow by e-mail before your arrival.
what types of pillows?	<p>I have ordered additional types of pillows for trial via the pillow program. In addition to 3 different neck support pillows of different hardness, there is a flat horsehair pillow, a neck roll and a clover pillow.</p> <p>There were already 2 feather / down pillows in the size 70x90 and 70x40 on the bed. Mixing ratio 70 percent feathers and 30 percent down. The relatively high proportion of feathers gives the pillow greater support compared to a pillow with a high proportion of down.</p>
